

**Date of Issue: 20 November, 2024**

**GLY-PRO™ FG HTF  
Food and Drug Administration (FDA) Compliance**

GLY-PRO™ FG Heat Transfer Fluid is composed of pharmaceutical-grade propylene glycol and food-grade inhibitors. All ingredients are recognized as safe by the FDA under its food additive regulations (21 CFR 184.1666 and 21 CFR 182.6285..

Given this regulatory approval and extensive history of safe use, we certify that GLY-PRO™ FG is suitable for use as a heat transfer fluid in food processing equipment where incidental food contact may occur.

Please reach out for any additional information or clarification.

Regards
