GLY-PRO™ Tracer Food and Drug Administration (FDA) Compliance

GLY-PRO™ Tracer colourant is composed of Ultra low conductivity, high purity deionised water and food grade dye.

Brilliant Blue, Tartrazine, Indigo, Green, Sunset Yellow, White, are GRAS by FDA under its food additive regulations (21 CFR 74.1101, 74.2101, 74.1705, 74.2705, 73.3126, 74.3045, 178.1010, 74.102, 74.1102, 74.3102, 82.102, 74.1706, 74.2706, 74.706, 82.706

All ingredients are recognized as safe by FSANZ by section 1.3.1 of the Australia New Zealand Food Standards Code.

Given this regulatory approval and extensive history of safe use, we certify that GLY-PRO™ Tracer is suitable for use as a heat transfer fluid colourant in food processing equipment where incidental food contact may occur.

Please reach out for any additional information or clarification.
