

Cleaner

MILD ALKALINE-BASED OIL AND GREASE CLEANER

GLY-PRO™ Cleaner is a high performance cleaning fluid designed to effectively remove grease and oil build-up from internal pipework commonly used in HVAC and secondary refrigeration systems. GLY-PRO™ Cleaner chemically reacts with grease and oil deposits immediately dissolving and allowing them to be flushed out. GLY-PRO™ Cleaner is a specially formulated cleaning agent that restores system heat transfer efficiency whilst reducing energy consumption extending the lifespan of the system.

FEATURES

- Immediately dissolves oil and grease contaminants
- One step cleaning - effective and easy to use
- Non-aggressive cleaning and suitable for sensitive HVAC materials
- Non-foaming

DESCRIPTION AND USAGE

GLY-PRO™ Cleaner is a high performance cleaning fluid designed to effectively remove grease and oil build-up from internal pipework commonly used in HVAC and secondary refrigeration systems.

GLY-PRO™ Cleaner chemically reacts with grease and oil deposits immediately dissolving and allowing them to be flushed out.

GLY-PRO™ Cleaner is a specially formulated cleaning agent that restores system heat transfer efficiency whilst reducing energy

KEY BENEFITS

- Restores system heat transfer efficiency
- Reduces system energy consumption
- Restores efficient system flow
- No dismantling required
- Extends the lifespan of system pipeworks and components

consumption extending the lifespan of the system.

TECHNICAL DATA

SPEC	PROPERTIES
Colour	Clear to Yellow
pH	11-12.5
Specific Gravity	1.102

GLY-PRO™ Cleaner is available in pails and drums.
